

I benefit from the service XM Satellite Radio provides.
I willingly pay for the service because it offers me alternatives that are not currently available on free radio.

I do not believe that the FCC should accept positions of the NAB lobbyists who are only fighting for their own good, rather than the good of many.

As consumers and citizens of the United States of America we demand variety and the ability to pay for services that we choose, not what someone else would choose for us.

Please make sure that XM Satellite is not limited because they have created a competitive atmosphere.

Please make sure that lobbyists dont have the power to control what we choose.

Sincerely,

Craig N. Luther
